SNOW CRAB

MSC PRODUCT AVAILABLE

SEAMAZZ® Snow crab (*Chionoecetes opilio*) is wild caught in the cold North Atlantic waters and processed at the peak of freshness. All snow crab is pre-cooked and ready to eat.

Features & Benefits

- Each cluster is graded for clean shell appearance and then cooked, chilled and frozen properly, producing a sweet and rich flavor.
- A seasonal favorite, snow crab makes for an exceptional center of plate presentation or a compliment to a seafood tower or buffet
- All natural, wild caught snow crab is processed to the highest quality SEAMAZZ® specification.

Country of Origin

SEAMAZZ® Snow crab is a wild-caught product of Canada. Product of Norway is available during select times of year.

Master Carton & Graded Sizes

1 x 30 lb. (13.6 kg) master carton.
Graded sizes: 4/up, 5/8, 8/up, 10/up & 12/up oz. clusters.

Food for thought

Light, low-fat menu items are becoming increasingly popular. Snow crab is low in fat and calories yet high in protein - perfect for health conscious consumers who demand great taste and good nutrition.
